The Ten Dimensions of Life (also called the **Ten Dimensions of Wealth**) are central to an understanding of the true wealth God wishes for us to enjoy. In order to **live more fully and on purpose**, it is important to more clearly define each life dimension of true wealthy living. As you read each definition, ask yourself the question, “How might I enjoy a greater depth of wealth (richness) in this dimension of my life?”

**To Be Wealthy = To be enriched financially and in every way**  
**Wealthy Living = Living abundantly in every area of life.**

## FULLER DEFINITIONS

1. **Spiritual Wealth** is a sound, healthy, and prosperous inner soul and spirit—one that includes rich fellowship with the living God and generous service to others.
2. **Intellectual Wealth** is being rich in lifelong learning and discovery. It's the joy of discovery and the quest for knowledge and wisdom.
3. **Emotional Wealth** is being rich in sanity: happiness and peacefulness of mind. It's inner contentment even when things seem to not be going according to your plan.
4. **Material Wealth** is having the things you need to make your life safe and comfortable. It's the physical expression of the wealth of your mind.
5. **Financial Wealth** is having more than enough money for your financial independence or financial freedom. It's enjoying financial stability in abundance.
6. **Physical Wealth** is health (strength, vigor, and wholeness) in your physical body. It's usually the result of deliberate care and maintenance.
7. **Social Wealth** is the real joy of life: fostering and enjoying positive, wholesome relationships with people, the community, the nation, and the world. It's loving and being loved.
8. **Occupational Wealth** is doing what you love and having the joy of being able to express your special Calling and gifts. It's the full expression of your UPT (Unique Personal Touch) to the world. It can be the enjoyment of either voluntary or employment based productive activity.
9. **Time Wealth** is enjoying the trek toward the fulfillment of your highest aspirations and dreams. Time Wealth embraces all the other nine dimensions. This kind of wealth is only achieved by implementing daily, goal directed action in order to fulfill the dreams of each dimension. It's success: enjoying the journey, not just struggling for the destination.
10. **Environmental Wealth** is having wholesome, peaceful living surroundings that stimulate personal growth and a healthy lifestyle for your physical and emotional well-being. Indeed, it is promoting a healthy surrounding that will foster growth and safety in every dimension of your life.

The environmental dimension of life is often overlooked. But it is extremely important and foundational to all the other dimensions. Environment is that powerful influence upon an individual that greatly determines her or his survival and significantly shapes or *misshapes* the level of affluence.
